

## STI PERFORMANCE PARTS

LEGACY B4 (BM)

## Chassis/Body

**FLEXIBLE TOWER BAR F**

SG517AJ102

This is a strut tower bar with a completely new concept - splitting an aluminum tower bar in the center and connecting the two pieces with pillow ball joints. As the left and right pieces are flexibly connected, the bar can moderately handle longitudinal forces such as from gaps on the road to maintain ride comfort while strongly holding against lateral forces during cornering. As a result, not only cornering performance but also straight-line stability and ride comfort is improved to enhance the comprehensive performance level of the car.

**FLEX DRAW TOWER BAR F**

ST20522EZ000

This is a new product that adds the features of a draw stiffener to the flexible tower bar, a body stiffening component developed specially by STI. Applying pre-load (tension) to the tower bar in advance increases the steering responsiveness even during slight steering operation. The design of the tension adjustment gauge allows you to use it as a key holder or a similar accessory.

**FLEXIBLE DRAW STIFFENER F for turbo vehicle**

ST20118EZ000

This STI original sports performance part applies moderate tension between the vehicle body and cross member to prevent the chassis from bending when you drive the vehicle. This results in agile and responsive initial steering, as well as a comfortable ride. The vehicle will boast better grip on all four wheels, improved stability when cornering, and also fast and responsive steering performance.

\* For turbo vehicles (equipped on RH side)

\* This product can also be installed on vehicles with SI-Cruise and EyeSight.

\* The flexible draw stiffener is installed in different locations for a turbo car and a non-turbo car.

# STI PERFORMANCE PARTS

## Chassis/Body

### FLEXIBLE DRAW STIFFENER F for non-turbo vehicle

ST20118EZ010

This STI original sports performance part applies moderate tension between the vehicle body and cross member to prevent the chassis from bending when you drive the vehicle. This results in agile and responsive initial steering, as well as a comfortable ride. The vehicle will boast better grip on all four wheels, improved stability when cornering, and also fast and responsive steering performance.

\* For non-turbo vehicles (equipped on LH side)

\* This product cannot be installed on the OUTBACK.

\* This product can also be installed on vehicles with SI-Cruise and EyeSight.

\* The flexible draw stiffener is installed in different locations for a turbo car and a non-turbo car.

### FLEXIBLE SUPPORT R KIT

ST20156EZ000

This STI original sports performance part improves stability when cornering, and also fast and responsive steering performance with comfort ride.

\* This product can also be installed on vehicles with SI-Cruise and EyeSight.

\* This product cannot be installed on the OUTBACK.

### STAY R KIT

ST57830ST000

Installing this product to the rear floor frame results in high driving stability and driving comfort.

\* Installing this with the flexible draw tower bar (sold separately, Part No. ST20522EZ000) on the B4 and touring wagon from the D-type and thereafter achieves high stability and driving comfort. We recommend installing both for maximum performance.

### COIL SPRING F

ST20330EZ000

The specifications for this product are based on repeated and thorough driving tests, to achieve the best match with standard genuine Bilstein damper. When installed, the car height is lowered approximately 15mm below the standard car height, and allows precise handling when cornering while remaining flexible. An additional feature is quality riding comfort that is suitable for the LEGACY. There are four combinations of coil springs respectively by 4-door/touring wagon models as well as by transmission types. The coil spring has a cherry red coating, with the STI logo.

\* These coil springs are for compatible models only.

\* For standard front struts.

\* They cannot be used with models other than compatible models, due to differences in car weight that could result in imbalance in car height from front to rear.

\* Car height is reduced approximately 15 mm from the standard height (when the car is empty). However, the change in car height might fluctuate according to accessories installed and individual differences in car bodies and parts.

### COIL SPRING F

ST20330EZ010

The specifications for this product are based on repeated and thorough driving tests, to achieve the best match with standard genuine Bilstein damper. When installed, the car height is lowered approximately 15mm below the standard car height, and allows precise handling when cornering while remaining flexible. An additional feature is quality riding comfort that is suitable for the LEGACY. There are four combinations of coil springs respectively by 4-door/touring wagon models as well as by transmission types. The coil spring has a cherry red coating, with the STI logo.

\* These coil springs are for compatible models only.

\* For standard front struts.

\* They cannot be used with models other than compatible models, due to differences in car weight that could result in imbalance in car height from front to rear.

\* Car height is reduced approximately 15 mm from the standard height (when the car is empty). However, the change in car height might fluctuate according to accessories installed and individual differences in car bodies and parts.

### COIL SPRING R SEDAN BM

ST20380EZ000

Sports springs designed for respective S Package cars. The specifications for this product are based on repeated and thorough driving tests, to achieve the best match with standard genuine damper. When installed, the car height is lowered approximately 15mm below the standard car height, and allows precise handling when cornering while remaining flexible. An additional feature is quality riding comfort that is suitable for the LEGACY. There are four combinations of coil springs respectively by 4-door/touring wagon models as well as by transmission types. The coil spring has a cherry red coating, with the STI logo.

\* These coil springs are for compatible models only.

\* For standard rear shock absorber.

\* They cannot be used with models other than compatible models, due to differences in car weight that could result in imbalance in car height from front to rear.

\* Car height is reduced approximately 15 mm from the standard height (when the car is empty). However, the change in car height might fluctuate according to accessories installed and individual differences in car bodies and parts.

\* For Sedan rear

### LATERAL LINK SET

ST20250ZR000

Set of 4 lateral links with pillow ball bushes. By changing the rubber bush inside a lateral link to a pillow ball bush, friction is reduced and caliper rigidity improved during a stroke, sharp handling is achieved during cornering, and linear suspension features from entering until exiting a turn are achieved. Pillow ball bushing (2 x 2 locations), press fitted.

## STI PERFORMANCE PARTS

### Wheel

#### STI VALVE CAP SET(Black)

ST28102Z2000 Black

These wheel valve caps are light weight with a design that features a knurled finish on machined aluminum to prevent slippage. Remove the standard valve caps to install these. A black alumite treatment has been applied to the surfaces of these valve caps to improve resistance to weather and match the color of aluminum wheels. The hexagonal heads of the valve caps have rounded tops, and a cherry red STI logo is stamped on the embossed area.

- 4-piece Set
- Black Alumite Treatment

\*When storing tires and wheels, we recommend that valve caps be stored separately to prevent sticking.

#### STI VALVE CAP SET

ST28102ST030 Silver

These wheel valve caps are light weight with a design that features a knurled finish on machined aluminum to prevent slippage. Remove the standard valve caps to install these. A silver alumite treatment has been applied to the surfaces of these valve caps to improve resistance to weather and match the color of aluminum wheels. The hexagonal heads of the valve caps have rounded tops, and a cherry red STI logo is stamped on the embossed area.

- 4-piece Set
- Silver Alumite Treatment

\*When storing tires and wheels, we recommend that valve caps be stored separately to prevent sticking.

#### SECURITY WHEEL NUT SET

ST28170ST060 GUN METALLIC

Set of 16 lug nuts and 4 lock nuts. Enhanced security with a more reliable locking mechanism. 3-layer nickel plated hard steel, with chrome finish to prevent rust. Gun metal finish with laser engraved STI logo. Special tool included (McGuard). M12x1.25mm

# STI PERFORMANCE PARTS

## Aero/Exterior

### FRONT UNDER SPOILER (A to C type, S package)

SG517AJ000 (ST96020EZ000)

In addition to improving handling at high speed, this aerodynamic spoiler is popular among drivers who wish to improve the styling of their vehicle. It rectifies airflow passing around and below the front bumper, generating downforce. With improved stability during high speed cornering, it gives an added sense of security to the driver. Semi-glossy black coating. Includes an STI emblem.

### FRONT UNDER SPOILER

SG517AJ020

In addition to improving handling at high speed, this aerodynamic spoiler is popular among drivers who wish to improve the styling of their vehicle. It rectifies airflow passing around and below the front bumper, generating downforce. With improved stability during high speed cornering, it gives an added sense of security to the driver. Semi-glossy black coating. Includes an STI emblem.

### DOOR HANDLE PROTECTOR SILVER

ST91099ST100 SILVER

This is a carbon-effect door-handle protector which protects the car from scratches and fingerprints when opening/closing doors.

With the addition of the new silver color, it is now more suitable for use with silver or white light-colored car bodies.

Designed for a grip-type door handle, this not only serves as scratch prevention, but also adds a sporty touch to the door handle surroundings. It can be mounted along the dented form of the door and is pressure-bonded with powerful double-sided tape.

\* Chemical-based products such as waxes and coating agents or solvents including gasoline and thinners can cause stains and deformation of the product. If the cover comes into contact with such chemicals or solvents, clean the product immediately.

\* Please note that the product may detach or loosen if the car is cleaned under high-pressure or steam washing.

\* The image is for illustrative purposes only. The shape may differ from the actual product.

\* A set of 4 pieces of the same size for 1 vehicle (4 doors)

\* Carbon-effect PVC

\* The surface of the product may become cloudy when it is exposed to moisture such as rainwater for a long time. However, this is a characteristic of the material used (PVC) and is not abnormal. It will be restored when dry.

\* When fitting the protector to an IMPREZA/SUBARU XV, please note that part numbers for current models (GK/GT) and former models (GP/GJ) are different.

# STI PERFORMANCE PARTS

## Aero/Exterior

### SIDE UNDER SPOILER

ST96030EZ020

This aerodynamic part, compatible with sedan and wagon models, rectifies the air flow along the side of the vehicle to improve driving stability, and serves to render the body line more stylish. When used in combination with the front under spoiler, an already available Subaru genuine part, and the trunk spoiler (for sedan models) or roof spoiler (for wagon models), both STI sports performance parts, this product delivers maximum performance, and gives the side line from the front a more sporty look.

\* This product is compatible with vehicles equipped with side sill spoilers by standard.

\* We recommend installing both a front under spoiler and trunk spoiler/roof spoiler together.

### SKIRT LIP

ST960204S292 FOR FRONT UNDER SPOILER

For installment on front under spoiler.

Installed on the end of the bottom of the front under spoiler, this part reduces the Clf / Cd while also ensuring protection and giving the vehicle a stylish appearance. Made from hardened rubber.

\* This product must be installed together with an STI front under spoiler.

\* When this product is installed, car height is lowered by 20mm below at the center.

### SKIRT LIP (CHERRY RED)

ST96020ST010 CHERRY RED

For installment on front under spoiler.

Installed on the end of the front under spoiler, this part reduces the Clf / Cd while also ensuring protection and giving the vehicle a stylish appearance.

\* This product must be installed together with an STI front under spoiler.

\* Compared to when the front under spoiler is installed, the ground clearance near the center of the front bumper is reduced by 20 mm.

# STI PERFORMANCE PARTS

## Aero/Exterior

### TRUNK SPOILER (Non Color)

ST96050EZ130

Geometry that has been shown to achieve the best performance during repeated wind tunnel testing of actual cars exhibits the following: rectification of airflow from front to rear when driving, and the generation of an effective downforce. This ensures traction at the front and rear axles, and improves handling.

\* We recommend using this along with the front under spoiler and skirt lip.

\* Separate painting is required to match the vehicle body color.

\* The illustrative photograph shows the tS painted in WR blue.

### DOOR HANDLE PROTECTOR

ST91099ST020

This is a carbon-effect door-handle protector which protects the car from scratches and fingerprints when opening/closing doors. Designed for a grip-type door handle, this not only serves as scratch prevention, but also adds a sporty touch to the door handle surroundings. It can be mounted along the dented form of the door and is pressure-bonded with powerful double-sided tape.

\* Chemical-based products such as waxes and coating agents or solvents including gasoline and thinners can cause stains and deformation of the product. If the cover comes into contact with such chemicals or solvents, clean the product immediately.

\* Please note that the product may detach or loosen if the car is cleaned under high-pressure or steam washing.

\* A set of 4 pieces of the same size for 1 vehicle (4 doors)

\* Carbon-effect PVC

\* When fitting the protector to an IMPREZA/SUBARU XV, please note that part numbers for current models (GK/GT) and former models (GP/GJ) are different.

### PIN STRIPE SET (SILVER/DARK GRAY)

ST91042EZ000 SILVER

ST91042EZ010 DARK GRAY

This pin stripe decal accessory gives the side body of the LEGACY a sharp appearance. The pin stripe provides a sporty look, highlighting the lines along the side body. You can choose between two different pin stripe colors, silver or dark gray, depending on the color shade of the body where the stripe is to be applied.

## STI PERFORMANCE PARTS

### Muffler

#### SPORTS MUFFLER (For BM TURBO)

ST44300EZ002

This muffler is manufactured from corrosive-resistant stainless steel to ensure light weight, and is specially designed for LEGACY (BM) turbo models. The distinct dual tail pipes are designed to fit into the cutouts on the rear bumper arch, have a double-walled structure and are 65 mm in diameter. The surface of this hand-welded product has a mirror-like finish, and features an engraved STI logo. It gives the rear of the Legacy a high quality and sporty look. In addition, the exhaust sound is tuned specifically to a high-quality and reassuring sound that fits the character of the LEGACY.

\* Gaskets and self-locking nuts are included with this product.

\* This product cannot be installed along with the SUBARU genuine rear bumper skirt (4-door / Wagon) due to insufficient clearance with the tail pipe.

#### SPORTS MUFFLER (For BM Non-Turbo)

ST44300EZ041

This muffler is manufactured from corrosive-resistant stainless steel to ensure light weight, and is specially designed for LEGACY (BM) (except the OUTBACK) non-turbo models including EyeSight installed model. The thick single tailpipe with a large 100-mm diameter, mirror-like finish, and engraved STI logo gives the rear of the LEGACY a high quality and sporty look.

It is tuned by STI and has a safe and reliable structure that will not affect the power unit or exhaust system. In addition, the exhaust sound is tuned specifically to a high-quality and reassuring sound that fits the character of the LEGACY.

\* Gaskets and self-locking nuts are included with this product.

\* This product cannot be installed along with the SUBARU genuine rear bumper skirt due to insufficient clearance with the tail pipe.

## STI PERFORMANCE PARTS

### Brake

#### BRAKE PAD SET F

ST26296ST090

These brake pads were developed with the aim of improving braking control, whether on a city road or winding roads.

This sports pad ensures suitable braking performance and improves fade resistance. The specifications were set to achieve a high level of balance between each component that contributes to the brake feeling required for street use, such as a direct pedal action feeling, reliability against fading, and low rotor aggressiveness. Cherry red coating with STI logo

\*Some judder (vibration of the car body) and noise will occur when braking, due to the coefficient of friction and heat resistance properties of the friction material that is used. Wear on the pads and rotors might occur slightly faster than normal.

#### BRAKE PAD SET R

ST26296ST110

These brake pads were developed with the aim of improving braking control, whether on a city road or winding roads.

This sports pad ensures suitable braking performance and improves fade resistance. The specifications were set to achieve a high level of balance between each component that contributes to the brake feeling required for street use, such as a direct pedal action feeling, reliability against fading, and low rotor aggressiveness. Cherry red coating with STI logo

\* Some judder (vibration of the car body) and noise will occur when braking, due to the coefficient of friction and heat resistance properties of the friction material that is used. Wear on the pads and rotors might occur slightly faster than normal.

\* The photo shown above is image.

\* A set of 2 pieces for rear RH and LH.

#### STAINLESS MESH BRAKE HOSE SET

ST26550EZ000

These brake hoses consist of Teflon tubes with a low internal expansion rate covered by stainless steel mesh to ensure their resistance to expansion and for fatigue durability. It delivers a direct and reassuring brake feeling.

# STI PERFORMANCE PARTS

## Engine/Transmission

### GEAR SHIFT LEVER ASSY(6MT)

SG117AJ100 (C1010AJ100)

Reduces the forward and backward shift stroke by 11 mm to achieve quick shift operation and a direct shift feeling.

### RADIATOR CAP

ST45137ST001

Opening value pressure changed from 108kPa(0.108MPa) standard value to 130kPa(0.13MPa). This radiator cap reduces the risk of overflow caused by the thermal expansion of coolant water even under severe conditions such as sports driving or circuit driving. Opening valve pressure unit changed from 'bar' to 'Mpa'.

\* When replacing this product, pay careful attention to leakage of water from the piping, and be sure to inspect the coolant water at the start of work.

### AIR CLEANER ELEMENT

ST1654621010

Non-woven fabric with a low airflow resistance is used as the filter medium, to which mesh is applied to increase rigidity. This prevents the filter medium from falling over or becoming deformed even at high engine speeds, for improved response and increased reliability during sports driving. In addition, the blue color of the filter medium combined with the red color of the resin frame provides an overall sporty appearance.

\* Use of this product with non-compatible models could cause engine trouble and/or damage.

\* Damage to the air flow meter due to replacement with this product may not be covered by the warranty for genuine products.

## STI PERFORMANCE PARTS

### Engine/Transmission

#### OIL FILLER CAP

ST15257ZR010

This oil filler cap consists of a die-cast aluminum base that has been machined, and given a stylish resin cover.

Shape of the cap has been specially designed to allow for use even when wearing work gloves.

For times when the cap is difficult to remove, it contains special service holes under the resin cover that allow you to use the on-board wheel wrench to loosen the cap when it is too tight to do so by hand. The silver aluminum base with embossed black cap showing the cherry red STI logo adds "functional beauty" to the engine compartment.

\* A gasket is not included. Please use the one attached to the filler cap you removed. If using a new gasket, be sure to use a genuine product for the corresponding model.

\* If this product is installed on non-compatible models, there is the risk of deformation in the oil filler neck.

\* The logo may not face the front.

#### PERFORMANCE OIL FILTER

ST15208ST010

This is an oil filter with enhanced performance thanks to an increased filtration area of 15% compared with a conventional product. With dedicated materials to improve its particle collection performance, this filter also captures fine particles such as carbon and reduces pressure loss by 10%. With the resulting reduced pump loss, this filter is compatible with high viscosity oil, providing stable performance not only on roads but also on the circuit track. It is painted cherry red and features the STI logo.

## STI PERFORMANCE PARTS

### Interior/Others

#### SHIFT KNOB 6MT

SG117AJ010

This premium shift knob features a combination of aluminum and dimpled genuine leather. The STI logo and shift pattern are stamped on the top of the knob. An optimal balance of materials, form, and weight has been selected with consideration for operational feel.

\* The shift knob may become hot/cold from exposure to direct sunlight or fluctuations in temperature. The use of driving gloves is recommended.

#### SHIFT KNOB (CVT/AT)

SG117AJ000

The top consists of a titanium panel with an STI logo engraving, and the grip is made from smooth leather which gives the product a luxurious feel and makes shifting gears more comfortable.

Wrapped in leather, with the STI logo

\* The shift knob may become hot/cold from exposure to direct sunlight or fluctuations in temperature. The use of driving gloves is recommended.

#### PEDAL PAD SET

SG317AJ010

The shape of this pedal was developed after repeated and thorough testing for sporty driving, and operability has been given the highest priority. Stable pedal operation is possible due to the rubber pads installed to prevent slipping. In addition, the area at your feet has a sporty look from the accelerator pedal to the foot rest.

\* This product cannot be installed on vehicles equipped with sports pedals with aluminum pads.

## STI PERFORMANCE PARTS

### Interior/Others

#### BATTERY HOLDER(SILVER)

ST82182ST010 SILVER

This unique battery holder has a design motif reminiscent of the flexible tower bar. In addition to securely holding the bulky battery, it also adds an attractive highlight to the engine compartment.

\* This product can be installed in many SUBARU vehicles that use a D-type battery, such as the LEGACY, LEVORG, WRX, IMPREZA, FORESTER, EXIGA, and SUBARU BRZ. Example battery model number: 80D23R (Compatible with batteries with "D" as the third digit.)

\* We recommend installation be carried out by your local SUBARU dealer.

#### SHIFT KNOB DURACON 6MT

ST35022ST271 6MT

This redesigned shift knob is made from the extremely popular lightweight and tough Duracon(R)\* material. The shape of the knob has been redesigned and refined to ensure reliable response during shifting. The shift pattern on the top has been modified to a carbon-based design to give a more sporty image.

\* Duracon (R) is a registered trademark of Polyplastics Co., Ltd. in Japan and other countries.

\* The shift knob may become hot/cold from exposure to direct sunlight or fluctuations in temperature. The use of driving gloves is recommended.

#### PUSH ENGINE SWITCH

ST83031ST041

Push-button ignition starter switch for models with keyless entry and push-button starter switches. The cherry red button with the STI logo in the center gives the interior a sporty appearance. Cherry red button, with the STI logo in the center.

\* For cars with keyless access and push-button start.

## STI PERFORMANCE PARTS

### Interior/Others

#### BATTERY HOLDER

ST82182ST000 CHERRY RED

This unique battery holder has a design motif reminiscent of the flexible tower bar. In addition to securely holding the bulky battery, it also adds an attractive highlight to the engine compartment.

\* This product can be installed in many SUBARU vehicles that use a D-type battery, such as the LEGACY, LEVORG, WRX, IMPREZA, FORESTER, EXIGA, and SUBARU BRZ. Example battery model number: 80D23R (Compatible with batteries with "D" as the third digit.)

\* We recommend installation be carried out by your local SUBARU dealer.

#### SHIFT KNOB DURACON 6MT

ST35022ST270 6MT

This redesigned shift knob is made from the extremely popular lightweight and tough Duracon(R)\* material. The shape of the knob has been redesigned and refined to ensure reliable response during shifting. The shift pattern on the top has been modified to a carbon-based design to give a more sporty image.

\* Duracon (R) is a registered trademark of Polyplastics Co., Ltd. in Japan and other countries.

\* The shift knob may become hot/cold from exposure to direct sunlight or fluctuations in temperature. The use of driving gloves is recommended.
